... Travel Beyond

Bungee Jump

Nepal's first bungee jumping site is situated 160m over the wild Bhoté Kosi river, and located close to the Nepal-Tibet border, a three-hour bus ride from Kathmandu. This activity can be arranged on arrival in Kathmandu. The jump, at 160m, was designed by one of New Zealand's leading bungee consultants, and is operated by some of the most experienced jump masters in the business, working to International Standards and guaranteeing your safety.

Location:

Less than 3 hours from Kathmandu by Ultimate Bungee Shuttle. You will travel the Arniko (Kathmandu/Lhasa) Highway to within 12km of the Tibet Border and the famous Friendship Bridge.

The Gorge:

Ultimate Bungee Nepal takes place on a 166m wide steel suspension bridge over the Bhoti Kosi River.

The Bridge:

Swiss designed, specially for bungee jumping with a 4x safety factor. The bridge has a loading factor of 250kg per running meter. This means that the bridge will hold $250 \times 166 = 41,500\text{kg}$ or 4.5 tonnes. And... those are Swiss measurements! * Over 6000 meters of steel wire was used to build the bridge * Longest suspension bridge in Nepal * The bridge joins two sides of a great valley. Before its construction, locals walked five hours to cross this river gorge.
